

Our Quality Policy

NJL Quality Commitment

Establish and adapt the organization so that quality is present in all phases, in order to ensure the determination and satisfaction of the requirements of our clients, as well as the needs of the different stakeholders, in order to reach our global objectives.

Principles of Quality

1. Customer Focus

We develop our work in order to obtain the satisfaction and loyalty of our clients, through the execution of works with a high level of quality;

2. Development of Employees

We intend to create an environment and working conditions that are identified with all our employees, through their continuous training;

3. Impact on Society

NJL conduct its activity by a set of principles that seek a correct management of resources, with special highlight for the fulfillment of the requirements, regulations and standards applicable to our activity;

4. Business Results

We would like to be a reference of the industry for the production and installation of ferrous metal constructions at national and international level, by increasing the competitiveness of products and services, based on the continuous improvement of NJL results, creating a sustained growth and profitable for the benefit of all stakeholders.
